Blue Artisans Design

is truly a Renaissance company

In 2010, Blue Artisans Design celebrated the lost arts of the jack-of-all-trade craftsman and expanded our vision to include not only fine art, but custom-built displays, home-made breads, and blank journals and sketchbooks. Now, moving into 2011, the five DiMarco artisans welcome our newest hand-crafted addition...

Cradle of Life Coffee

like no other coffee in the world.

We source a full-bodied coffee from Ethiopia, the birth-place of the bean, and organic herbs and spices to create a series of flavors that will excite both coffee- and tea-drinkers alike. Our blends mix the earthy taste of premium coffee with the distinct and bright flavors of the best the garden has to offer.

Our 2011 series of flavors include:

Black Cherry Chocolate * *

Classic Chocolate * *

Summer Peach

Citrus Symphony

Wild Harvest Berries

Mint Melody

Autumn Spice

Exotic Blend *

Vanilla Morning

All our blends include 75mg of naturally-occurring caffeine (from espresso) per 8oz cup. However, a single asterisks denotes a blend that contains espresso and black tea for 125mg of caffeine. A double asterisks denotes a blend that contains espresso and maté for 175mg of caffeine. No caffeine is artificially added.

Each freshly blended, 45g package yields one 26oz French Press of perfection that will satisfy coffee-drinkers with its rich flavor and delight tea-drinkers with its vibrant notes of fruits, mints, and exotic spices.
